Winemaking Process

Grapes are hand-picked and grape-must handled in a reductive process (without oxygen exposure). The must is then pressed very lightly to ensure a light-coloured juice with fresh fruit flavours. Fermented in stainless steel tanks with carefully monitored temperature control.

Maturation

The wine is raked off the lees after fermentation in tank to ensure fresh, clean, fruit flavours are preserved.

Tasting Comments

This Rose displays an explosion of fresh tropical fruit with hints of cherries and strawberries. This crisp dry wine has a subtle sweetness both on the nose and the palate, it is full yet refreshing with a lingering strawberry finish.
